Hiring Manager

Credit Suisse
Cluster A, Wing, 1 & 2, EON Free Zone, Kharadi, Pune,
Maharashtra 411014, Pune, Maharashtra.

Dear Hiring Manager,

With this letter I would like to express my interest in the **2022 India Technology Internship at Credit Suisse**. As I went through the requirements of the intern position, I came to know that the role aligns with my interests and I will be a great fit for the job.

I am currently studying in **Pune Institute of Computer Technology** with Bachelors in **Computer Engineering**. During my studies, I have worked on several projects based on core computer science subjects such as **Data Structures and Algorithms, Database Management System, Operating Systems**. I would like to use my skills with Credit Suisse, in order to make optimal use of my acquired knowledge.

I would describe myself as someone who is passionate towards learning new things and apply them to create something. I would like to put these characteristics to use within your organization. My experience as a **Problem setter intern** at **iMocha**, has provided me with the expertise to think critically and logically and come up with solutions to problems.

I would like to further discuss and explain my motivation to work for Credit Suisse. You can reach me either by phone via +917218864309 or by email via asktoajinkya@gmail.com.

Thank you for your consideration. I look forward to hearing from you.

Sincerely,

Ajinkya Kharosekar
